JAPANESE BEVERAGES

With the intense work schedules and high-pressure lifestyle in Japan, enjoying a well-earned drink at the end of the day is a common practice that helps strengthen both social and business ties.

While Japanese cuisine is celebrated worldwide, the world of drinks is equally remarkable and deserves recognition for its rich variety and cultural significance. Today, alcohol plays an appreciated role in Japanese daily life, whether it is savouring sake from a generations-old brewery or indulging in award-winning whisky, each beverage reflects regional traditions and craftsmanship, showcasing the artistry involved in its production.

日本酒 NIHONSHU

Nihonshu, a word that literally means "Japanese alcohol" and is used by the Japanese to refer to the rice liquor that the western world calls "*sake*". It is a fermented drink made from rice that has been polished, water, and koji, and was a focal offering at ceremonies, events, celebrations, and aristocratic mealtimes in ancient Japan.

Founded in Edo period 1615 with over 400 years of history in the northern Yamagata Prefecture as *Takagi Shuzo*, the Takagi family has continually brewed sake from generation to generation since that time. The brand *Juyondai* “十四代” comes from their last *toji* (head brewer), who was the 14th generation of this historical brewery.

Today, 15th generation Akitsuna Takagi is at the helm, and his aromatic *hōjun uma-kuchi* (mellow, umami) sake style was a revelation at a time when the sake market was dominated by *tanrei kara-kuchi* (light, dry) styles. The family’s sake brewery is renowned for its high-quality sake, which has such a cult-like following amongst sake enthusiasts, that it has become the most coveted and difficult-to-obtain sake in Japan.

In 2017, through the international launch of *Juyondai*, Takagi Sake Brewery finally presented its precious sake to the world. These classic *Juyondai* varietals, labelled with unique identification markers, are exclusively exported directly from Takagi Sake Brewery.

焼酎 SHŌCHŪ

Shochu originated in Japan at least 500 years ago. It shares certain characteristics with *soju*, including a similarly low ABV and pronunciation, but it is their more recent histories that set them apart. The etymology of their names are the same: the 'so' in *soju* and 'sho' in *shochu* both mean 'burn' or 'burned'; the 'ju' in *soju* and the 'chu' in *shochu* both mean 'alcohol'.

ビール BĪRU

While *nihonshu* might be Japan's most famous alcoholic beverage, beer is undoubtedly the most popular and widely consumed at home and drinking establishments nationwide. It mostly comes from the country's four major breweries; Asahi, Kirin, Suntory and Sapporo, which mainly produce lager-type beers at around 5% ABV.

SPIRIT

Japanese spirits are celebrating a new era these days. In 2015, Japanese whisky became one of the most coveted spirits overnight when the 2013 Yamazaki Sherry Cask was named the best whisky in the world. And now, Japanese gins, rums, and new craft vodka brands have been gaining the attention of connoisseurs, each featuring their own original Japanese characteristics.

ワイン WINE

Although more famous for *nihonshu*, and in recent years for whisky, domestic wine production using locally produced grapes began with the adoption of the western culture during the *Meiji* restoration.

The country is becoming increasingly aware of its potential as a winemaking region, leaning into this from both a touristic and gastronomic standpoint.
