The following pages offer a glimpse of what awaits you, but we very much hope you will have the opportunity to experience Pan Pacific Orchard in person. Whether staying with us or visiting, we look forward to welcoming you with sincere service and signature experiences, crafting unforgettable memories for all.

FOREST TERRACE WALKWAY

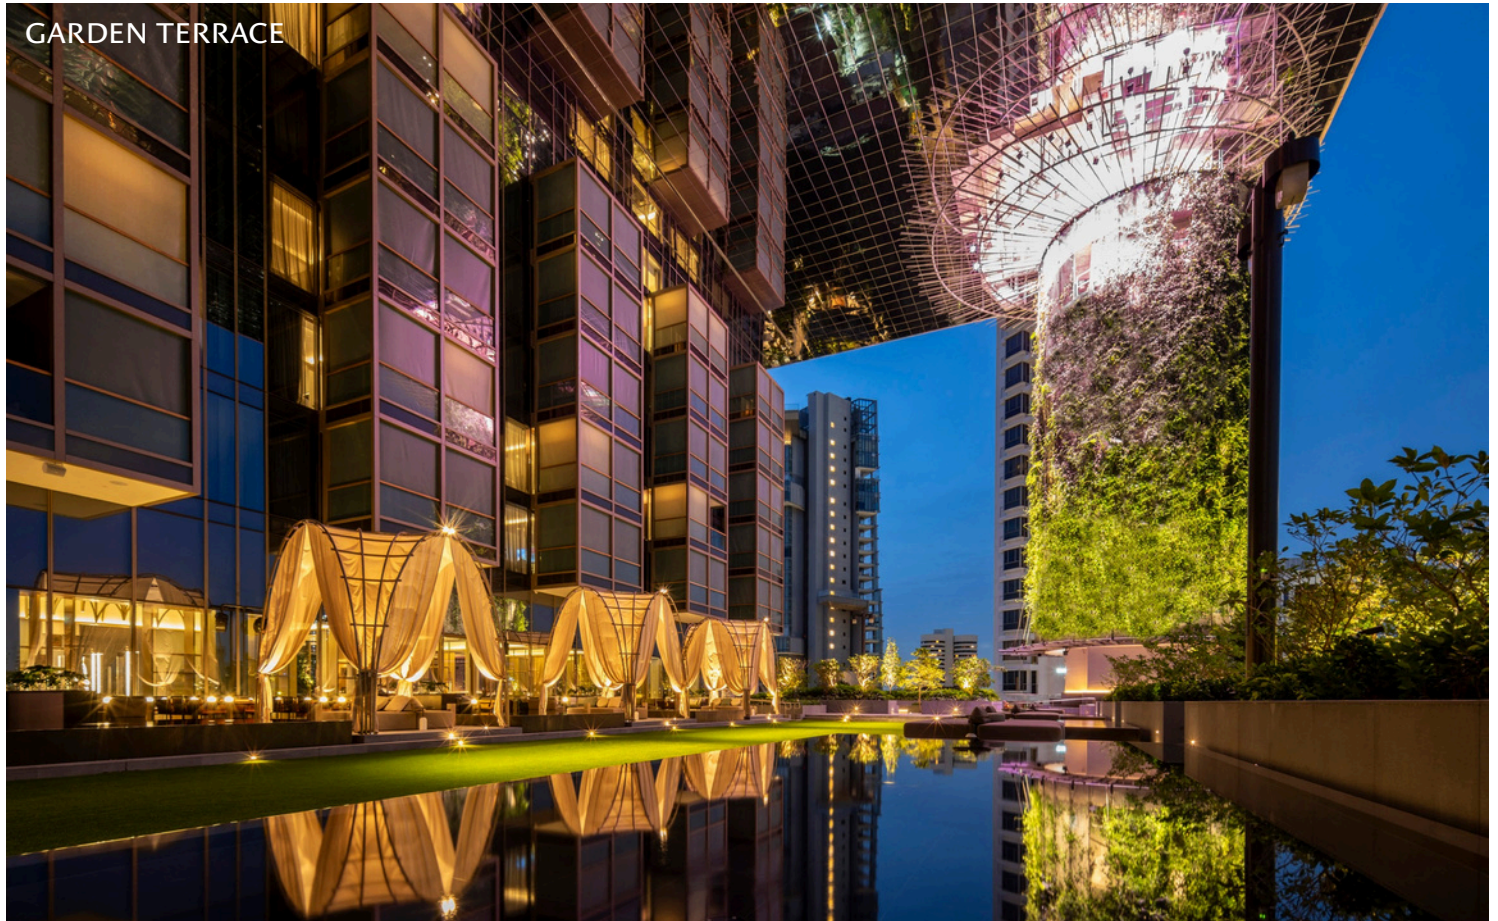

An Icon Designed For Nature

Designed by WOHA, Pan Pacific Orchard sets a new standard in high-rise tropical hospitality, featuring 14,000 square metres of foliage and water features. Nature is architecturally celebrated with four expansive terraced environments: Forest, Beach, Garden and Cloud.

Dramatic 120 metres green columns tower through the terraces, creating a spectacle of thriving flora with open-air spaces welcoming abundant fresh breeze and natural daylight for exquisite alfresco experiences.

Beyond the guest experience, the design of the hotel allows the city to embrace the building as a vertical garden, which not only gives a densely built-up district much-needed respite from the concrete jungle, but is also a strong reminder that the built environment can and must co-exist with nature.

Sustainable Hospitality

Pan Pacific Orchard is one of Singapore's only luxury hotels designed with the environment in mind, brimming with 14,000 square metres of foliage and water features that occupy over 300% of the hotel's land area.

Recognised with a BCA Green Mark Platinum certification and the Global Sustainable Tourism Council certification for Sustainable Tourism, the hotel integrates its energy, water, and waste systems seamlessly. Solar panels on the roof generate clean energy, rainwater is thoughtfully harvested for greenery irrigation, and a bio-digester system ingeniously converts food waste into valuable cleaning water, exemplifying a dedication to a greener future.
