

Iconic Design

Designed by FDAT,
an award-winning
architecture and interior
design studio

Welcoming guests into
a world of biophilia providing
an urban retreat where one can
find balance and renewal in the
heart of the city

Sustainability and Eco-friendliness

Home to 78 planters of 13,000 sqft
of plants and trees forming a
distinctive lush landscaped façade

A variety of air-purifying plants and
trees serving as natural humidifiers

Filtered water system eliminates
single-use plastic bottles

A food waste digester to process
food waste to be natural fertilizers.

Eco-friendly coffee briquettes made
from upcycled coffee grounds are
used as a sustainable heat source.

Premium APPELLES bathroom
amenities in refillable pump bottles
reduces waste from single-use
miniature tubes

Bed linen and bath towels are
refreshed only upon request for
water and energy conservation.

Recycling bins in every guestroom

6 EV Charging Stations offer
convenient charging options for
electric vehicle users

Lifestyle and Well-being

Situated in the heart of Kuala Lumpur's renowned Golden Triangle area,
minutes away from the central business, shopping and entertainment hub,
the holistic wellness floor features:

A state-of-the-art
gymnasium

Curated eco-chic
wedding banquet
and inspiring events

A sanctuary of
relaxation at the
St. Gregory Spa

Sustainable MICE
packages to support
"green" meetings
and events

A 24-meter-long
outdoor pool
and an adjacent
children's pool set amidst
landscaped features

Treehouse - a
'social' space for
meetings

Inspiring Dining

Conscious Dining

Sustainable dining and
mindful drinking

Thyme offers an eclectic
mix of sustainably sourced
local and western cuisine

The Botanist Lounge & Bar
is designed with warm
wood furnishings and
touches of greenery

Skye Chill situated on the
Wellness Floor that
complements the hotel's
holistic approach to
well-being
